A few more months and we will view With fear sweet sister Nan, In see more skirt and peek-a-boo, And a thick coat of tan. —Luke.

About all a man learns from experience is that he is his own best friend.

Nothing is so humiliating to a twelve-year-old boy as to be seen in company with a girl.

A woman elopes to her husband not so much because she admires him, but because he is hers.

If a married man wishes to start a controversy with his wife let him express the opinion that some other woman is good-looking.

CONGRESSMEN DECLARE IF AMERICAN FLAG IS RAISED IN MEXICO IT WILL ALWAYS STAY UP.

Washington. — Discussing President Wilson's order dispatching the Atlantic Fleet to Tampico, Representative Ainey, of Pennsylvania, said:

"This movement of the American warships means war. Too long this country has followed a weak policy. The war now coming could have been prevented had there been at the outset a strong and determined stand against Mexican insults and outrages. The Administration is to blame, and must hold itself to be responsible."

Senator Borah, Republican member Foreign Relations Committee, said:

"If this means intervention and is the first step in that direction, as some believe it will be, then the American flag will go up in Mexico to stay."

"If the flag is once raised there it will never come down. We may say it will but history points the other way. Once the United States forces enter Mexico as an armed body we are entering on the march to the Panama canal, and it looks to me as if that march would not stop until all the countries between our present southern boundary and the canal had been brought under the dominion of the United States."

Vincent Astor, who has been seriously ill, has greatly improved.

DISMISS LEE'S GRANDSON FROM WEST POINT.

West Point, N. Y.—Robert E. Lee, of North Carolina, a grandson of Gen. Robert E. Lee, was dismissed from the United States Military Academy because of deficiency in mathematics. P. H. Hodgson, of Nevada, was also dropped for the same reason. Lee played shortstop on the cadet nine and Hodgson last fall was on the eleven.

POPE COMPOSES A CHANT.

Pope Pius, a good musician, lately enriched the church music with a chant in four parts written entirely by himself. The composition is characterized by deep religious fervor and is in the form of an appeal to his patron saint, Joseph. The chant was sung for the first time last month in the Pope's private chapel in the Vatican. Among the few privileged listeners was Maestro Perosi, conductor of the Sistine Choir, who says that the Pope's chant requires a little technical polishing, but reveals high musical talent.

AFTER SICKNESS

Mrs. Gardner Tells How to Restore One's Strength.

So many people are asking how to recover their strength after severe sickness that we are publishing this information for their benefit.

After grippe, pleurisy, pneumonia or any illness what you need is new strength and better blood.

The most certain way to get this is by taking Vinol, our delicious cod liver and iron preparation.

Mrs. M. T. Gardner, Chicago, Ill., says: "After a very serious operation I was a total invalid for nearly a year and a convalescent for months thereafter. I gave the remedies of a number of eminent specialists a thorough trial, but without deriving the slightest benefit. Vinol was recommended. Without the least faith in the merits of the medicine, I took it faithfully, and it seemed to bring back the old color to my cheeks and the elasticity to my step which I had despaired of ever recovering. I can say, conscientiously, that for nervous, run-down people, Vinol is an excellent remedy."

Try a bottle of Vinol. Your money will be returned if it does not restore your vitality and strength. J. C. Peacor, Druggist, Maysville.

P. S.—If you have Eczema try our Saxo Salve. We guarantee it.

DOCTOR SAID HE HAD DROPSY

Some time ago I had an attack of grippe which finally settled in my kidneys and bladder. I doctored with the doctors and they claimed I had dropsy. I tried other remedies and got no relief from any of them. My condition was such that I was unable to work for about two months and the annoying symptoms caused me a great deal of trouble and pain. I was hardly able to turn over in bed. Seeing one of your Almanacs, I decided to give Dr. Kilmer's Swamp-Root a trial and after taking several bottles was able to resume my work again. I cannot say too much in praise of your Swamp-Root as the results in my case were truly wonderful.

Yours very truly, ROBERT BALLARD, Mansfield, Pa. Sworn and subscribed before me, this 7th day of May, 1912. RAY C. LONGBOTHUM, Notary Public.

Letter to Dr. Kilmer & Co., Binghamton, N. Y.

PUBLIC EDUCATION THROUGH LOCAL NEWSPAPERS.

A striking illustration of the way in which local newspapers can instruct the public on health topics is found in the special Y. W. C. A. edition of the Knoxville (Tenn.) Sentinel, issued by the women of Knoxville. This edition contains a large number of special articles on many topics of local and general interest, an entire page being given to public health. A large share of this page is occupied by an article on "Organized Medicine, What it Stands For, and Some of the Things it has Accomplished," which presents an entire argument for medical organization as a benefit to the public. The objects and advantages of organization, for both local and national associations, are presented clearly and forcibly. Other articles on the page are, "Immunity First Aid to Preventive Medicine," "Advantages Claimed for General Hospital Plan," "Garbage Disposal," and "Visitation." A reprint of Rudyard Kipling's article on "The Doctor and the Patient" from the Ladies' Home Journal completes the page. This example is a good one for other county societies to follow. In counties in which the medical profession is properly and effectively organized, a request from the society as a body, for insertion in the leading papers of the county of suitable educational articles on public health topics, will be disregarded by very few local newspapers. Articles prepared under the supervision of the county society and published with its approval will carry an amount of authority and influence that would not be possible in the case of articles prepared and signed by individual physicians. With the advance in preventive medicine and the increase in knowledge of the methods of transmission of contagious diseases, the doctor is reverting more and more to his original role of teacher. The Journal of the American Medical Association thinks that the sooner physicians as a class qualify themselves for this educational function, the sooner they will have the commanding support of intelligent people.

BLUE LICK WATER AND THEN MORE BLUE LICK WATER.

Drilling for oil at Myers Station, has been suspended by the Moorefield Oil & Gas Co., for a time, owing to the fact that at a depth of 700 feet Saturday, Blue Lick Water was struck, which now stands within three feet of the top of the well. The water is reported to be the same as for years poured forth at the Lower Licks, and the promoters are at a standstill at present to know whether to ease the well and proceed deeper for oil which they are confident is only a few feet lower.

THE FARM CREED.

We believe that soil likes to eat as well as its owner, and ought, therefore, to be liberally fed.

We believe in large crops which leave the land better than they found it—making the farmer and farm both glad at once.

We believe in going to the bottom of things and, therefore, in deep plowing and enough of it. All the better with a subsoil plow.

We believe that every farm should own a good farmer.

We believe that the best fertilizer for any soil is a spirit of industry, enterprise and intelligence. Without this, lime and gypsum, bones and green manure, marl and guano will be of little use.

We believe in good fences, good barns, good farm houses, good stock, good orchards, and children enough to gather the fruit.

We believe in a clean kitchen, a neat wife in it, a spinning wheel, a clean cupboard, a clean dairy and a clean conscience.

We firmly disbelieve in farmers that will not improve, in farms that grow poorer every year; in starving cattle; in farmers' boys turning into clerks and merchants; in farmers' daughters unwilling to work, and in all farmers ashamed of their vocations or who drink whisky until honest people are ashamed of them.
